

JAKUB KLEJCZYK

F R O N T - E N D D E V E L O P E R

ABOUT

I have been programming for almost two years. My first steps I took in Python, although after some time my interests turned into web applications. Since then, I have been improving in Front-end technologies and coding has become my everyday life.

CONTACT

- ☎ 511-001-174
- ✉ jakub.klejczyk16@gmail.com
- 📍 Mennicza 30/5, 43-400 Cieszyn

PROJECTS

Portal Shop

<https://portal-shop-project.netlify.app/>

Shop simulation created with Vue, Vuex, Vue Router, TypeScript, Scss and Firebase. Project represents almost everything what I have learned so far. Allow user to create account (also with Google API), log in and manage cart.

Github repository search engine

<https://wyszukiwarka-github.netlify.app/>

Search engine for Github repositories, uses REST API.

Portfolio

<https://jakub-klejczyk-portfolio.netlify.app/>

Contains more information about my skills and projects
